16th July 2013

Brass Fertilizer Company Limited
Plot 112B Olabode George Street
Victoria Island
Lagos

Attention: Chief Ben Okoye

Dear Sir,

ACCEPTANCE OF INVITATION

RE: THE PROVISION OF FACILITIES ENGINEERING SUPPORT

Re: Creation of Framework for Developing and Maturing An Identified Gas Supply Option for the Brass Fertilizer Project

This is to acknowledge receipt via email yesterday, of your letter dated 12th July 2013 in respect of gas supply to the Brass Fertilizer Project, and to convey our acceptance of the invitation.

Consequently, we hereby undertake to execute the full complement of facilities engineering studies and other related project work that will be needed in the opportunity realisation process for the gas supply to the Brass Fertilizer Project.

In this respect, we will provide the competent resources that will work in the multidisciplinary team, with the appropriate QA/QC support that will ensure quality systems of work and conformance with the oil & gas industry standard, - covering also specific needs at the various levels of value assurance reviews and decision gates sessions that will arise in the course of the project works.

We will be available (represented by our Mr. Aloy Duru) to attend the inaugural meeting of the team on Wednesday 17th July or any date it will eventually hold.

On the rates for the works, we request you give us some time to advise that, - preferably after the inaugural meeting, by which time we will have an improved understanding and assessment of scope & involvement.

Meanwhile, we would like to thank you for the opportunity given to us to render this service, while assuring you of our commitment to quality and timely delivery.

Yours faithfully

Epic Atlantic

The Spirit of Endeavour
